TONOPAH DAILY BONANZA

Today's Silver
Quotation, 52 3-8

VOL. X. NO. 112

TONOPAH, NEVADA, SATURDAY EVENING, SEPTEMBER 2, 1911.

PRICE 10 CENTS.

GENERAL FUND OF STATE IS RELIEVED

CARSON CITY, Nev., Sept. 1.—The supreme court yesterday afternoon rendered a unanimous decision in the mandamus proceedings against State Treasurer McMillan and ordered that the \$73,000 taken from the general fund for the state prison fund be placed back in the general fund and further decided that the sum of \$73,000 was illegally taken from the general fund in the first place. This decision of the supreme court relieves the money stringency in the state government and makes it possible once more to pay state warrants.

SERIOUS ACCIDENT BEFALLS YOUNG SON OF GEORGE BRISSELL

ARM SHATTERED FROM FALL AND BONES PROTRUDE THE FLESH.

At about 4 o'clock yesterday afternoon the five-year-old son of George Brissell was returning to his home from the scene of the fire at the Clark residence on University Heights, when he stopped at the home of Mrs. Laura Egan, on Bryan avenue, to play with her children. The Egan house, being built on the south slope of Mt. Brougher, the front porch is six or seven feet off the ground. The lad mounted the steps and sat on the railing, which runs around the porch. From some cause the boy lost his balance and fell to the ground, striking on his right arm.

Mrs. Egan, who was engaged in sewing in a room in the rear of the house heard the child lamenting and on going to the porch found the boy lying on the ground, suffering great pain.

The lady lifted up the unfortunate child and upon examination discovered that the right forearm had been broken, the fracture being so bad that the jagged ends of the broken bones were protruding through the flesh.

Her first thought was to telephone for a physician, but upon the advice of a neighbor they immediately conveyed the child to his home, near Brougher avenue, about two blocks away.

On the way they stopped at the residence of John Farris and Mrs. Farris summoned aid from Mr. Flint and that gentleman carried the little fellow to his home. The pain was so excruciating that the child was semi-conscious by the time he reached his abode.

A physician was called immediately. When the physician reached the Brissell home he set at work mending the broken limb. The boy suffered untold agony during the night but today he is reported as resting easily.

So serious was the fracture that it required six stitches to close the abrasion made by the protruding bones. It will be at least five days before the attending physician can set the bones and place the arm in a plaster cast.

STRANGEST FREAK OF LIGHTNING ON RECORD

ORANGE, N. J., Sept. 2.—The strangest freak of lightning on record here was shown when the high school building was opened for the fall cleaning this week. The painters found evidence that the building had been struck by a bolt during a recent storm, probably on Saturday last. The bolt started a fire in the woodwork of the basement, but at the same time broke a water pipe which extinguished the blaze before serious damage had resulted.

DEATH OF MRS. ROBERT KYLE AT AUSTIN

Surveyor General Kyle was the recipient of sad news last evening. A telegram came to him announcing the sudden death of his daughter-in-law, Mrs. Robert Kyle, at Austin. Mr. Kyle took the first train for the east. The deceased was a native of Lander county and was about 30 years old. The funeral will probably be held there.—Reno Gazette.

TONOPAH LEADS ON MINING STOCK EXCHANGE BOARD

A speculative Porcupine has constructed—for the moment—the one concluding factor to an immediate Tonopah boom—public interest. This boom comes after years of development and physical certification. Tonopah stocks had their speculative lifting—subsequent drop, and are now on the eye of an appreciation that will splinter the efforts of cradle stocks in Porcupine or elsewhere, and establish a new precedent in mining history.

Tonopah stocks will make money for present buyers because Tonopah mines have earned an advance in valuation.

The 10 per cent increase in Belmont ore reserves should be 75 per cent; West End has only stirred—it will soon stride; Rescue Eula, now in the pennies, should be in the dollars; Mizpah, Extension, Midway, Jim Butler and other Tonopahs, offer the most legitimate speculations without undue risk, among metal shares.

EMPLOYERS' LIABILITY LAW GOES INTO EFFECT IN STATE OF CALIFORNIA

SAN FRANCISCO, Sept. 2.—California's new employers' liability law, abolishing the contributory negligence and fellow servant defenses in actions for damages brought by injured employees went into effect yesterday. The law, which was a part of the reform program of the last legislature, provides fixed compensation for injured workmen, benefits to widows and orphans and medical and surgical attention. The amount of compensation is to be regulated by an industrial accident board of three members, appointed by the governor.

The employer is held liable for any injury sustained by an employee in the performance of his duty.

CHURCH NOTICE.

Services tomorrow (Sunday) at St. Mark's Episcopal church are as follows: At 10 a. m., Sunday school; 11 a. m., Holy Communion and sermon; 7:30 p. m., Holy Baptism, initiation of choir boys and sermon.

WAR CLOUD IN EUROPE IS STILL BLACK

BRUSSELS, Sept. 2.—The Belgium government continues actively engaged in completing the armament of all the garrisons on the German and French borders. Several trains have been dispatched with ammunition and guns from the Liege arsenal to Namur, Liege and Verviers. All the forts are being inspected.

The Belgium newspapers explain the activity by the statement that talk of European hostilities has awakened the Belgian war ministry to the unprepared condition of the Belgian army and defenses.

France in Suspense.

PARIS, Sept. 2.—France still remains in a state of suspense over the outcome of the negotiations between France and Germany relative to Morocco. While in official circles an optimistic attitude is maintained that the negotiations, which are to be resumed shortly will lead to a satisfactory settlement, there is certain anxiety among the people because of the possibility of a rupture. The consequences of such a result are much discussed.

Germany Is Hopeful.

BERLIN, Sept. 2.—The Moroccan situation, with the return of M. Cambon, French ambassador, carrying fresh instructions from the French government, enters upon a new stage which it is hoped will be decisive. Herr Von Kiderlin-Waechter, the foreign secretary, and Chancellor Bethmann-Hollweg, who are both in Berlin, conferred at length during the day.

It is said the German government

DEMANDS OF THE FEDERATION HAVE BEEN REJECTED

STRIKE IS STILL UNCERTAIN

May Mean Walkout of the Men Employed in the Various Union Pacific Shops.

SAN FRANCISCO, Sept. 1.—Julius Kruttschnitt, vice president and director of maintenance and ways of the Harriman lines, acting under full authority given him by President Robert S. Lovett, rejected yesterday the demands of the newly organized federation of shop employees of the Harriman lines. He absolutely refused to recognize officially the existence of the federation. His answer followed a conference of three hours and 20 minutes.

After a hasty lunch the union representatives went to their hotel for an executive meeting. Their spokesman, J. W. Kline, refused to make any statement.

After discussing the situation among themselves, the international officers will meet the advisory board of the federation. The federation president, E. L. Reguin, likewise refused to make any statement.

SAN FRANCISCO, Sept. 2.—There was nothing to indicate late yesterday what had been accomplished by more than two hours of conference between Vice President Julius Kruttschnitt of the Harriman system and the presidents of the several craft unions employed in the Southern Pacific company's shops which seek recognition for their general organization, the federation of shop employees.

Mr. Kruttschnitt made it a point before he entered into the conference that he received the labor leaders as representing their respective unions only.

The labor men declared themselves as hopeful that the federation would be recognized before the conference ended; but not a word of the debate got beyond the doors of the conference room.

None of those concerned had anything to say before the conference began and it was still in session at 1:30 o'clock.

CHICAGO, Sept. 2.—Following the refusal of President C. H. Markham of the Illinois Central railroad to recognize the federation of shopmen, the twenty-seven delegates representing the nine crafts yesterday held several conferences and kept in close touch with the situation in San Francisco, where Vice President Julius Kruttschnitt of the Harriman lines was to meet with union labor leaders.

Three courses are said to be open to the leaders of the 8,000 shopmen employed by the Illinois Central railroad:

First—To call out the shopmen employed by the Illinois Central at once, either in a separate strike or in connection with a general strike of all shopmen on the Harriman lines.

Second—To serve a 30 days' notice abrogating existing wage agreements.

Third—To recede from their demand that the railroads recognize the federated organization of shop employees.

SUITS FILED.

Augustus Tilden, attorney from Goldfield, today filed two suits against Letson Ballet. One suit is for an accounting as manager of the Belmont Extension Mining company and the other of the same nature as manager of the Buckeye Mining company. George Thatcher is attorney for Mr. Ballet in these suits filed.

Don't miss the pajama dance at the Casino tonight.

is in possession of the French viewpoint, and the general proposals of France with reference to safeguarding Germany's commercial interests in Morocco are regarded as satisfactory; but the settlement of details is complicated by the compensation question. This probably will entail a long discussion.

SAN BERNARDINO DENTIST HELD TO SUPERIOR COURT

GIRL REVEALS AWFUL STORY

Outraged Parent Is Prevented From Injuring the Betrayer of His Daughter.

SAN BERNARDINO, Cal., Sept. 2.—Dr. W. A. McDavit, the dentist charged with a statutory offense following the alleged imprisonment in his office for 15 months of Miss Jessie McDonald, was held to answer to the superior court yesterday afternoon.

The girl testified. She related a detailed account of her life with McDavit, she said she was immured in a little room off his offices and for 10 months did not get one glimpse of daylight. She testified the blinds at the windows were always drawn, and for days at a time, she said, she had no food.

Dr. S. S. Mancha, who attended the girl when her child was born, followed, and corroborated most of her testimony. The prosecution then rested. The defense called no witnesses.

McDavit was escorted to the court room by a squad of armed deputies from the Riverside jail, where he has been secretly held the last two weeks to prevent an expected attempt against his life. The girl carefully avoided his eyes while testifying.

When court adjourned in the afternoon D. McDonald, the girl's father, jumped from his chair and attempted to strike the prisoner, but deputies prevented it. The courtroom was instantly in an uproar. Deputies whisked the prisoner out to the jail before the demonstration took serious shape.

UNUSUALLY GOOD PROGRAM FOR TONIGHT

An unusually good program is on the bill at the Butler theater tonight. The following is a list of the pictures to be shown at the Butler tonight: "Through Jealous Eyes," a drama produced by the Lubin company; "By the Aid of the Lariat," a Kalem picture, and "Dad's Boy," a delightful story of filial love and devotion.

The boy who has been educated in college by great hardship and privation on the part of his parents comes to their aid at a time when they are most in need.

Tonight will be the last appearance of Leo Dulinage, the master of the unicycles, that has filled the audience with admiration and wonder at his many daring stunts for the past two evenings.

Next Tuesday afternoon and evening, September 5, we will show three reels of the Wolgast-Moran fight pictures, in addition to our regular show. Two hours of high-class entertainment. The first show commences at 7 p. m.

BUSINESS HAS BEEN VERY GOOD DURING AUGUST

A representative of the Bonanza interviewed the leading business men of Tonopah during the past two days to ascertain the business conditions of the city during the month of August, which is generally the dull period. Each and every dealer responded: "Business for August the best month yet." There are more men employed at present in Tonopah than at any time in its past history. The August payroll will be the banner one. It is estimated that \$20,000 more will be distributed to employees on the 10th of this month. Tonopah is improving each month, everybody is happy and contented, and it can be truthfully said that this city is the most prosperous in the state and the "best ever."

Don't miss the pajama dance at the Casino tonight.

PUBLIC SCHOOLS OF THIS CITY WILL OPEN TUESDAY

The Tonopah schools will open Tuesday morning. It is thought, with a larger attendance than that of last year, as a great many new families have moved to this city during the past three months. The coming year promises to be a most profitable one to the teachers and students alike. Professor Yoder is a hard worker and his efforts will surely bring results to the scholar. All classes begin their work on Tuesday morning, so it behooves all students to be on hand with their books ready to buckle down to their regular work.

FUNERAL HELD.

The remains of the late Gabriel Kovacevich were laid to rest in the city cemetery this afternoon under the auspices of the Tonopah Miners' union. The Tonopah brass band headed the funeral cortege. The remains were followed to the cemetery by a large number of sorrowing friends.

BOY MURDERER IN NEW YORK WILL NOT BE ELECTROCUTED

NEW YORK, Sept. 2.—The jury in the case of Paul Geidel, the 17-year-old boy, charged with the murder of William H. Jackson in the Riquiois hotel on July 26, yesterday returned a verdict of murder in the second degree.

By the verdict, Geidel escapes the electric chair, but will be sentenced for a long term in either Sing Sing or Auburn prison.

Motions were deferred by Judge Crain until next Tuesday, when sentence probably will be pronounced on the prisoner. The minimum term is 20 years and the maximum life.

When Geidel was brought into court to learn his fate he was pale. Tears welled into his eyes and rolled down his face when he heard the verdict and he clenched his hands in an effort to control himself. None of his relatives were in court. The prisoner had nothing to say and was quickly led away to the Tombs prison.

BONDED PROPERTY IN NEW DISTRICT NORTH OF TONOPAH

It is rumored today upon the streets that Tom Murphy, the mining magnate of Goldfield, and C. K. Jarvis have taken a bond upon the property of J. J. Clark and E. M. Johnson at Eldorado, the newest discovery in this section of Nevada. The new find is growing each day in value and promises to become a big producer.

ARE BUYING HOMES.

The people of Tonopah are talking land purchase to Ed Wilson, who is disposing of a portion of his tract near Stockton. All but four of the 10 and 20-acre tracts that he is selling have been sold. Interested buyers are asked to visit the farm lands for themselves and they will find the statements of Mr. Wilson truthful and not misrepresented to them.

PRESBYTERIAN CHURCH SERVICES FOR SUNDAY

Sunday evening there will be a sermon by the minister, Rev. Herman L. Burnham, relative to "Industrial Interests," suggested by Labor Day. A cordial invitation is extended to all who are interested in the great social movements of our time. Morning service at 11 a. m.; Sunday school at 9:45 a. m.; Y. P. S. C. E. meeting at 6:15. If you have no church home, you are invited to this church for mutual labor and fellowship in the Master's Kingdom. Herman L. Burnham, minister.

ORE SHIPMENTS FOR PAST WEEK

Following is the report of the various mines on ore shipment during the past week. It shows a falling off as several hundred tons as compared with the report a week ago:

Mines.	Tons.
Tonopah Mining	3,000
Belmont	2,260
Montana	1,054
Tonopah Extension	980
West End	150
Midway	50
Total	7,494

The estimated value of all ores shipped the past week is \$187,350.

JAMES MAHONEY HAS BEEN FOUND ALIVE BY THE SEARCHING PARTY

HAD WANDERED MANY MILES OVER THE DESERT SANDS OF NEVADA.

RENO, Nev., Sept. 2.—James Mahoney, the New York policeman who was crazed by the heat on the desert Wednesday afternoon, has been found.

On receipt of a telegram notifying him of the disappearance of Mr. Mahoney from the surveying camp, Constable G. W. Sharkey of Hazen notified Sheriff Coniff and the two set out to find him dead or alive. They found him late last night near the Desert Queen mine. In speaking of the search Constable Sharkey said:

"Late last night we returned from the survey camp and there found the young man. He had just returned and was in an exhausted condition, but his mind had been cleared of the heat madness and he was perfectly rational. I don't think that there will be any serious consequences. He is now inured to the desert heat.

"Mahoney wandered away without clothing, food or water. He did not know where he was going, but he hurried on and his tongue was so swollen with thirst as he crawled into camp at the Desert Queen mine that he could not speak.

"The boys gave him every attention and care. The next morning he was sufficiently recovered that the miners conveyed him back to the survey camp. He had a mighty narrow escape, as all who know the desert realize. His heat madness was due to the fact that he was not used to the desert. He knows a few things about it now."

OLD VETERAN RECEIVES CHECK AFTER 46 YEARS

DENVER, Sept. 2.—Forty years after he had put in a claim against the government for \$2.31, James B. Earl, a veteran of the Civil war, received his money. As the government pays no interest, Earl's check, which he has just received, was for the exact amount he claimed August 16, 1865, when he was mustered out of the union army. At that time his pay check was short \$1.60 and his clothing allowance was 71 cents.

THE SIGN OF GOOD TIMES.

There are very few vacant stores or residences on the Comstock at the present time, many men employed in the mines finding it impossible to bring their families here on account of the lack of suitable houses.

The biggest mistake property-holders made here several years ago, was when houses were torn down by the score and moved to Reno when the boom first started there. Virginia is not having a boom on sensational lines, but a steady, gradual growth in keeping with the improving conditions in the mines.—Chronicle.

NO PAPER MONDAY.

Monday being Labor Day, and a legal holiday, there will be no issue of the Daily Bonanza on Monday. The force will celebrate the day in a proper manner.
